

HER  
1112

## Identification

|                               |                            |                   |                        |
|-------------------------------|----------------------------|-------------------|------------------------|
| <i>Genus</i><br>Sinorhizobium | <i>Species</i><br>meliloti | <i>Subspecies</i> | <i>Strain</i><br>R1220 |
|-------------------------------|----------------------------|-------------------|------------------------|

*Aliases*

## Growth conditions

|                    |                     |                          |                         |                         |
|--------------------|---------------------|--------------------------|-------------------------|-------------------------|
| <i>Temp.</i><br>30 | <i>Medium</i><br>RC | <i>Aerobic/Anaerobic</i> | <i>Agitation</i><br>Yes | <i>Other</i><br>Calcium |
|--------------------|---------------------|--------------------------|-------------------------|-------------------------|

## Lysogeny

## Phage sensitivity

HER 112 (1 Lesley)

HER 113 (T1 Lesley)
