

HER  
1366

## Identification

|                             |                        |                   |                             |
|-----------------------------|------------------------|-------------------|-----------------------------|
| <i>Genus</i><br>Escherichia | <i>Species</i><br>coli | <i>Subspecies</i> | <i>Strain</i><br>K12 MC4100 |
|-----------------------------|------------------------|-------------------|-----------------------------|

*Aliases*

## Growth conditions

|                    |                      |                          |                  |              |
|--------------------|----------------------|--------------------------|------------------|--------------|
| <i>Temp.</i><br>37 | <i>Medium</i><br>TSA | <i>Aerobic/Anaerobic</i> | <i>Agitation</i> | <i>Other</i> |
|--------------------|----------------------|--------------------------|------------------|--------------|

## Lysogeny

## Phage sensitivity

HER 364 (SS4)

HER 366 (K20)
