Phage HER 529

HER number
529

Identification

Name	*Morphotype*	*Other designations*	
ST	Siphophage	CbaST	

Taxonomy

Realm	*Kingdom*	*Phylum*	*Class*

Order	*Family*	*Genus*	*Species*
	?1	*Cbastvirus*	*Cbastvirus ST*

Images

Electron Micrograph	*Image description*

Characteristics	*Genomic sequence*
	Activated

Propagation conditions

Bacterial hosts
1529

Reference

Remarks
Plaques take 1-2 days to appear on double layer plates.

History

History

Received from

Prof. Matthew Sullivan, Center for Microbial Interface Biology, Ohio State University,
484 W. 12th Ave. Columbus, OH 43210

Date

December 2016

Isolated by

Dr. Karin Holmfeldt, Department of Biology and Environmental Science, Linnaeus University, 391 82 Kalmar, Sweden

Date

February 2000
