

HER number

529

Identification

Name

ST

Morphotype

Siphophage

Other designations

CbaST

Taxonomy

Realm

Kingdom

Phylum

Class

Order

Family

?1

Genus

Cbastvirus

Species

Cbastvirus ST

Images

Electron Micrograph

Image description

Characteristics

Genomic sequence

Activated

Propagation conditions

Bacterial hosts

1529

Reference

Remarks

Plaques take 1-2 days to appear on double layer plates.

History

History

Received from

Prof. Matthew Sullivan, Center for Microbial Interface
Biology, Ohio State University,
484 W. 12th Ave. Columbus, OH 43210

Date

December 2016

Isolated by

Dr. Karin Holmfeldt, Department of Biology and
Environmental Science, Linnaeus
University, 391 82 Kalmar, Sweden

Date

February 2000
