

HER  
1252

## Identification

|                             |                       |                    |                     |
|-----------------------------|-----------------------|--------------------|---------------------|
| <i>Genre</i><br>Escherichia | <i>Espèce</i><br>coli | <i>Sous-espèce</i> | <i>Souche</i><br>40 |
|-----------------------------|-----------------------|--------------------|---------------------|

*Autres désignations*

## Conditions de croissance

|                    |                      |                          |                  |               |
|--------------------|----------------------|--------------------------|------------------|---------------|
| <i>Temp.</i><br>37 | <i>Milieu</i><br>TSA | <i>Aérobie/Anaérobie</i> | <i>Agitation</i> | <i>Autres</i> |
|--------------------|----------------------|--------------------------|------------------|---------------|

## Lysogénie

## Sensibilité phagique

|                  |              |                      |
|------------------|--------------|----------------------|
| HER 252 (HER252) | HER 253 (Mu) | HER 252 (D108 cts10) |
|------------------|--------------|----------------------|
